To unite and empower Christian leaders across the African continent to impact their cities with the Gospel and influence urban issues such as; fatherlessness; education; poverty; unemployment; etc.

'The world is moving to the city. No part of the planet is urbanizing faster than sub-Saharan Africa. The continent's population of roughly 1.1 billion is expected to double by 2050. More than 80% of that growth will occur in cities, especially slums'

World Economic Forum on Africa 2016

THE ROADSHOW

During the month of October 2016 a delegation of 280 Africa leaders attended the Movement Day Global Cities gathering in New York, USA. The focus of the gathering was to learn what God is doing in cities around the world, as well as identifying key/significant elements of importance to how the church, Business and other entities can play a leading role towards City Transformation.

During the last day of the gathering the Africa delegation came together to discuss the possibility of hosting Movement Day in Africa, for Africa and the Nations. The feeling throughout the room was positive, and a small group of facilitators were selected to develop a plan to realize this possibility.

Although much more are to be done towards seeing Movement Day Africa become a reality in July-August 2018, we are ready for a next step. a Roadshow has been scheduled to:

- Listen and learn from what God is doing through existing city networks.
- Add momentum to these networks.
- Identify key areas to how Movement Day Africa could serve and speak into the variety of challenges experienced by the cities visited.
- Expose these cities to best practice from cities from around the world.
- Develop a platform for voices from within the cities in Africa to direct the proposed purpose and outcome of Movement Day in Africa.
